

FACET™ is a “multipurpose” seating series in every aspect. Facet offers comfortable design features, end user convenience and unlimited possibilities. Facet is everything you could hope for in a multipurpose chair and then some.

- Facet is available with casters or glides.
- Facet is available arm or armless.
- Molded contoured plastic arm.
- Stainless steel glides are standard.
- The compound contoured seat and back are generously proportioned giving you the feel of a much larger chair.
- Waterfall seat front for extended comfort.
- Facet stacks five high on the floor.
- Facet can be ganged together with optional brackets (AG30 for arms and AG31 for armless chairs) to maintain alignment and efficient use of space.
